

FIVE FAMOUS INDIANS
CALL ON THE HERALD

"Washington a Fine City and People
Like de Indians," They
Declare.

HAVE CONFIDENCE IN SELLS

Five full-blooded Indians called at The Washington Herald office yesterday. They came from Rosebud Reservation, South Dakota. Well dressed and equipped with fashionable suit-cases and other traveling paraphernalia, they proceeded to the Herald office after they had asked "a little business" with Cato Sells, Commissioner of Indian Affairs. Tomorrow they are to leave for the reservation, and this is the unanimous announcement of what they are going to tell their brethren there.

"Washington fine city, people lika de Indians," Cato Sells, he lika de red men. He say he will not allow de white men to cheat de Indians out of deir property."

Of late there has been considerable agitation by the Indian land office to preserve to the Indians the rights upon property they own. In recent reports there have been allusions to allegedly fraudulent schemes by wealthy oil companies and other interests to "beat" the red men out of their property.

The five Indians who called at The Herald office yesterday expressed their utmost confidence in the intentions of Commissioner Sells, and at the same time gave vent to an enthusiastic gratitude for the sympathy shown by Washingtonians at the death of the famous Indian chieftain, Henry Hollow Horn Bear. Before leaving, they joined in "three cheers for The Washington Herald," and as they left The Herald Building they promised the young women employed in The Herald office to send them "some nice souvenirs."

Starvation Will Not
Cure Dyspepsia

But a Stuart's Dyspepsia Tablet Will
Enable You to Eat Your Meals
Without Suffering After
Doing So.

Every person knows that to live in a healthy, happy manner we must eat. Diet, starvation, predigestion, indigestion, are the correct methods of eliminating digestion disorders.

"If I Were Sure This Meal Would Not
Injure Me I Would Eat It All
Louding Weight Every Day."

In cases of dyspepsia, catarrh of the stomach, gastritis, heartburn, rash, foul breath, bowel complaint, stomach trouble, etc., a Stuart's Dyspepsia Tablet taken after each meal will do more good than anything you have ever tried.

COL. DICK PLUNKETT AND FIVE FAMOUS RED MEN. Henry Hollow Horn Bear, son of the famous Indian chief who died here during the inauguration last year; Brave Bird, a brother of Chief Hollow Horn Bear; Clement Whirlwind Soldier, William Thunderhawk, and Henry Horse Face, all of Rosebud Reservation, South Dakota.

RATS CAUSE FIRE.
Department's Work Aggravated by
Slippery Condition of Streets.

Several blazes kept the fire department busy yesterday. The slippery condition of the streets made their work difficult and dangerous.

Shortly before daybreak rats gnawing on matches caused a \$100 fire at 1209 Seventh street northwest, occupied by Martha Abramowitz.

While playing near a stove in the kitchen of her home, Hattie Walker, a nine-year-old colored girl, of Benning Road, D. C., was seriously burned.

Louis Watson, eighteen years old, of 509 Fourth street southeast, while building a fire in the kitchen stove at his home, was injured about the hands when the stove exploded.

The pitman's box at the south end of the Anacostia Bridge was totally destroyed yesterday afternoon by fire, the damage amounting only to \$20.

CHICAGO WOMEN CAST
VOTES FOR ALDERMEN

Of Eight Women Candidates, the
Only Two Being Opposed Are
Easily Defeated.

FEMINE BALLOT IS LIGHT

Chicago, Feb. 24.—For the first time in Chicago's history the women joined with the men today in nominating candidates for aldermen. Although the women's vote was light, it was heavier than expected, because of efforts of the women leaders to prevent the new voters from making party alliances at this time.

Of the eight women candidates in the field, the two having opponents, Mrs. Mary Garbar and Miss Sara T. M. Hopkins, were overwhelmingly defeated. In but two wards was the woman vote effective in determining the result. In the Twenty-third, where a three-cornered race was on between Mrs. Marie Gerhardt, Adolph Weiner, and Joseph Hopp, for the Democratic nomination, Weiner was successful. The vote cast by the men gave Hopp the nomination, but the women vote overthrew the balance. Mrs. Gerhardt herself received only thirty-nine women's votes, while 330 women voted for Weiner. In the Sixteenth ward the vote cast by the men made John Szynkowski the Democratic nominee.

VILLA TO GIVE UP
BENTON'S BODY

CONTINUED FROM PAGE ONE.

British consul at Galveston. The Ambassador also impressed Secretary Bryan with the importance his government attaches to the recovery of Benton's body.

After his conference, Ambassador Spring-Rice took occasion to pay a compliment to the State Department for its earnest efforts on behalf of British subjects. "The United States government could do no more than it is doing," said the Ambassador, "had Mr. Benton been a close relative of President Wilson himself."

The bad impression created earlier in the day by the attitude of the constitutionalists with regard to yielding up Benton's body was strengthened by the contradiction in which they have involved themselves regarding Baugh, the German-American, who was last seen in Villa's custody in Juarez. Consul Edwards was first informed that nothing was known of Baugh; later, that he had been taken to the prison at Chihuahua, when Villa went there, and now, it is reported, Villa has declared that the man was released in Juarez last week.

Consul Letcher reported from Chihuahua that he had been unable to locate Baugh in Chihuahua. In view of the similarity between the treatment of inquiries regarding Baugh and those regarding Benton prior to the disclosure of his execution, the suspicion has been aroused here that the American citizen may also be in his grave. The contradictions regarding Baugh served also to destroy what little belief there was among officials here in Villa's account of Benton's death.

MORE MARINES RUSHED
TO SERVICE IN MEXICO

Mobile, Ala., Feb. 24.—Eight hundred and fifty more marines will be sent to Mexico tomorrow on the result of the latest blizzard of the winter. Practically the entire country from the Atlantic to the Rocky Mountains and from Tennessee to the Canadian border is covered with snow and it is snowing today in many parts of the Central West.

ATTACK ON TORREON
STARTS IN EARNEST

Mexico City, Feb. 24.—Reports coming to this city tonight indicate that the rebel attack on the city of Torreon has begun in earnest. The reports say that the city is being made the center of a number of small attacks.

CONFLICTING REPORTS
CAUSE FEAR FOR BAUGH

El Paso, Feb. 24.—Gen. Francisco Villa's statement that Gustav Baugh, an American citizen, charged with being a federal spy, is not in Chihuahua, and was not brought there from Juarez by him, but was turned free in face of the re-

port of Col. Fidel Avila, and other constitutionalist officers to American Consul Thomas D. Edwards that Baugh had been removed to Chihuahua for trial by the supreme court of the State has led to the belief that Baugh has been executed. If he had been released by the Mexicans he would have come to his relatives in El Paso. This is the belief of his sister, Mrs. J. M. Patterson.

Many Americans are inclined to believe the report that the prisoners taken on Villa's train were taken off at Samalayuca and executed because of the firm statement made by the Juarez officials that he left Juarez, and the advice from Consul Marion Letcher that he cannot be located in Chihuahua.

AMERICAN REPORTED
HANGED BY MEXICANS

Dispatches Tell of Vergara Being
Lured Away, Knocked Senseless,
and Carried Over Border.

Laredo, Feb. 24.—Clemente Vergara, an American citizen, captured and carried into Mexico recently by Mexican federalists, was hanged this morning, according to advices brought here today from Hidalgo, Mexico. Vergara had been ordered released by the federal commanders at Laredo as the result of representations in his behalf by American authorities.

MIDDLE WEST IN GRIP OF
BLIZZARD; TRAINS STALLED

Chicago, Feb. 24.—The entire Upper Mississippi Valley region was struck by a storm-bound today as the result of the fiercest blizzard of the winter. Practically the entire country from the Atlantic to the Rocky Mountains and from Tennessee to the Canadian border is covered with snow and it is snowing today in many parts of the Central West.

In all parts of Illinois railroad and interurban trains were blocked by deep snow drifts. Railroad and electric lines in Indiana are being operated today without regard to schedules. Reports from Ohio cities told of the demoralization of traffic throughout the State. Canton and Newark were probably the hardest hit of all the Ohio cities, and a fuel famine was threatened in such places. In Missouri, Iowa and Kansas trains were blocked by snow drifts.

45,000 French Miners Out.

Paris, Feb. 24.—The strike of coal miners in Southern France because of the elimination of several clauses of the Underground Workers' pension bill was extended today until 45,000 men went idle.

About 185,000 men remained at work. No disorder has been reported.

LANSBURGH FURNITURE COMPANY

A great many pieces of furniture left from Washington's Birthday Sale are still displayed on the first floor and go at the same reduced prices.

—as prevailed here during the half day Monday. They're all odd pieces—not undesirable, but reduced in price because they ARE odd—the ends of lines which were enormous sellers.

THE REDUCTION IS SO GREAT AS
TO SOUND ALMOST INCREDIBLE.

However, they're here—to see for yourself, and you may arrange the terms of payment to suit yourself.

NOBILITY WILL HONOR
WHITE SOX AND GIANTS

World's Tourists Are Feted in London.
Big Crowd Will Witness
Game Today.

THEATERS ARE THROWN OPEN

By DAMON RUNYON.

London, Feb. 24.—Baseball bumps into the British nobility tomorrow. But all patriotic Americans may rest assured that it will not be baseball that recedes from the shock.

The National obsession has taken on titles at all weights on its travels round the world, so it is in the pink of condition for the encounter tomorrow. Lord Londsdale, the famous patron of pugilism; Lord Guernsey, Lord Desborough, Sir George Riddell and numerous other heavy hitters in Burke's peerage, under contract to appear, will be cordially greeted by Sam Crawford, the Marquis of Walpole, Larry Doyle, Duke of Harlem; Charles Comiskey, Count of Chicago; Ted Sullivan, Barnacle of Baseball. Jim Thorpe will positively appear in his self-cocking pug and especially trained for this occasion. Bill Klem, the celebrated film filler, is bordering on nervous prostration over the prospect of meeting so much real class. Bill is very dependent over not having a claw-hammer coat for the after function, but will do his best to horn into every available inch of the films in plain clothes.

More than one hundred and fifty Americans are giving the luncheon. J. L. Griffiths will preside.

H. Gordon Selfridge, the famous American merchant, is taking an active part in the arrangement. The American Consul General will be present. This will be the biggest event given in London in honor of visiting Americans of any kind in recent years.

RAILROAD OFFICIAL
ADMITS GIRL'S CHARGES

Sixty-year-old Clubman Fined \$750
for Contributing to Delinquency
of Girl, Sixteen.

Cincinnati, Ohio, Feb. 24.—Col. Brent Arnold, over sixty years old, prominent clubman, society leader, and general freight agent and superintendent of terminals of the Louisville and Nashville Railroad, pleaded guilty in juvenile court here today to a charge of contributing to the delinquency of sixteen-year-old Mildred Crane.

Judge Gorman fined Arnold \$750 and costs.

In view of Arnold's standing in the community and his age, I will not impose a prison sentence," said the judge. "The fine in some way should be proportionate to the offense."

MAN BURNED TO DEATH.

Other Lodgers Have Narrow Escapes
from New York Fire.

New York, Feb. 24.—One man was burned to death and four had narrow escapes from death in a fire which swept the five-story brick building at First avenue and Ninth street today.

VIVISECTIONISTS FIGHT
RESTRICTION BY LAW

Dr. Simon Flexner and Others Appear Before Committee of New York Legislature.

DEFEND TESTS ON HUMANS

Albany, Feb. 24.—Dr. Simon Flexner, director of the Rockefeller Institute, opposing legislation for investigation of vivisection and human experimentation, pleaded today with the joint committee on judiciary of the senate and assembly not to do anything to retard the progress of medical science. He asserted that the blood disease named in the reports of the experiments of Dr. Noguchi is a greater menace to humanity than is tuberculosis.

"I should say that the human race," said Dr. Flexner, "has profited more by the discovery of the reactionability of the skin than it has by the invention and perfection of the automobile and the aeroplane. Remember, gentlemen, that for the first time we know what parasites in Dr. Noguchi, who has been pictured to you today as a demon, is the man who made that great discovery."

Questioned, Dr. Flexner admitted that vivisection is a necessary part of the germ of a blood disease and tuberculosis without the consent of their parents and guardians. He asserted that under no condition could any harm be produced by the use of either of these serums.

In addition to Dr. Flexner those who spoke in opposition to legislation curbing experiments were Dr. Frederick Lee, of the College of Physicians and Surgeons, who defended the experiments that have been criticized; Dr. William P. Northrup, of Willard Parker Hospital, who advocated the use of the tuberculin test, and Dr. Frank Van Fleet, of the Manhattan Eye, Ear and Throat Hospital.

DOINGS OF THE VAN LOONS.
